‖ NovaSaaS — WordPress Theme Kit ‖
‖ VSCode + Claude দিয়ে বানাও — Day by Day Guide ‖
╚═══════════════════════════════════════╝

কীভাবে ব্যবহার করবে:

1. VSCode খোলো

2. Ctrl+Shift+P → Claude: Chat খোলো

3. SYSTEM PROMPT টা আগে দাও

4. তারপর DAY 1, DAY 2, DAY 3 একটা একটা করে দাও

═══════════════════════════════════════

■ SYSTEM PROMPT — সবার আগে এটা দাও (একবারই)

═══════════════════════════════════════

You are a Senior WordPress Theme Developer with ThemeForest Elite Author experience. I am building "NovaSaaS" — a premium SaaS & Startup Landing Page WordPress Theme Kit for ThemeForest.

STRICT RULES — never break these:

- Text Domain: novasaas (ALL strings must use __('text', 'novasaas') or esc_html_e('text', 'novasaas'))
- Prefix: novasaas_ on ALL functions, hooks, classes, global variables
- Sanitize ALL inputs: sanitize_text_field(), sanitize_email(), absint()
- Escape ALL outputs: esc_html(), esc_attr(), esc_url(), wp_kses_post()
- Nonce on ALL forms: wp_nonce_field() + wp_verify_nonce()
- No hardcoded URLs, colors, or paths in PHP
- No jQuery — Vanilla JS only
- WordPress Coding Standards (WPCS)
- Child theme compatible
- Mobile-first responsive (320px to 1920px)
- PHP 8.x OOP where applicable

DESIGN SYSTEM:

- Primary: `#6366F1` (Indigo)
- Secondary: `#EC4899` (Pink)
- Accent: `#06B6D4` (Cyan)
- Dark BG: `#0F0A1E`
- Card BG: `#1A1530`
- Border: rgba(99,102,241,0.2)
- Text: `#F8FAFC`
- Text Muted: `#94A3B8`
- Success: `#10B981`
- Font Heading: Plus Jakarta Sans (Google Fonts)
- Font Body: Inter (Google Fonts)
- Style: Premium dark SaaS, glassmorphism cards, gradient accents

DEMO CONTENT (StreamFlow — Project Management SaaS):

- Product: StreamFlow
- Tagline: "Scale Your Business with StreamFlow"
- Plans: Starter $9/mo, Pro $29/mo, Enterprise $99/mo
- Stats: 10,000+ Users, 99.9% Uptime, 150+ Countries, 4.9/5 Rating
- Team: 4 members (Sarah Chen CEO, Mark Davis CTO, Lisa Park Design, Tom Wilson Dev)
- Blog: 3 tech posts

FOLDER: /wp-content/themes/novasaas/

Always write COMPLETE files — no placeholder comments like "// add code here". Production-ready only. I will give you tasks one by one.

■ DAY 1 — TASK 1: style.css + functions.php + Theme Setup

Create these files completely:

FILE 1: novasaas/style.css

Write the complete file with:

1. Theme headers: /* Theme Name: NovaSaaS Theme URI: https://themeforest.net Author: YourName Author URI: https://yoursite.com Description: NovaSaaS is a premium WordPress theme kit for SaaS startups, software companies, and tech businesses. Built with Elementor, featuring dark glassmorphism design, animated hero sections, pricing tables, and everything a modern SaaS landing page needs. Version: 1.0.0 Requires at least: 6.0 Tested up to: 6.6 Requires PHP: 8.0 License: Envato Regular/Extended License License URI: https://themeforest.net/licenses Text Domain: novasaas Tags: dark, saas, startup, elementor, one-page, landing-page, responsive, rtl-language-support */
2. CSS custom properties (all colors, fonts, spacing, shadows)
3. CSS reset (modern, minimal)
4. Base typography styles
5. Utility classes (.novasaas-container, .novasaas-section, .novasaas-btn, .novasaas-btn-outline, .novasaas-badge)
6. Glassmorphism card class (.novasaas-glass-card)
7. Gradient text class (.novasaas-gradient-text)
8. Animation classes (fadeInUp, slideInLeft, countUp)
9. Responsive grid helpers
10. Dark overlay utilities

FILE 2: novasaas/functions.php

Complete functions.php with:

1. require_once all inc/ files
2. TGMPA plugin requirements: Elementor (required), One Click Demo Import (required), Contact Form 7 (recommended)
3. novasaas_setup() — add_theme_support for: title-tag, post-thumbnails, html5, custom-logo, dark-editor-style, responsive-embeds, woocommerce
4. register_nav_menus: primary-menu, footer-menu, mobile-menu
5. register_sidebars: novasaas-sidebar (main), novasaas-blog-sidebar, novasaas-footer-1/2/3
6. Custom image sizes: novasaas-hero (1920,1080), novasaas-blog (800,500), novasaas-team (400,400,true), novasaas-thumb (600,400,true)
7. novasaas_scripts() — enqueue Google Fonts (Plus Jakarta Sans + Inter via preconnect), theme.css, theme.js with wp_localize_script for ajax_url + nonce

FILE 3: novasaas/inc/class-theme-setup.php

OOP class NovasSaaS_Theme_Setup:

- All theme support registration

- Nav menu registration
- Sidebar registration
- Image sizes
- init() static method

FILE 4: novasaas/inc/class-assets.php

OOP class NovaSaaS_Assets:

- enqueue_styles() method
- enqueue_scripts() method
- Google Fonts with preconnect (privacy-friendly, load from Google)
- Conditional loading: blog CSS only on blog pages, single CSS only on singular
- Version from theme version constant
- wp_localize_script: novasaas_ajax with ajax_url, nonce, is_home, site_url

FILE 5: novasaas/inc/helpers.php

Helper functions (all prefixed novasaas_):

- novasaas_get_theme_version() → returns version string
- novasaas_get_option($key, $default) → gets customizer option
- novasaas_get_svg_avatar($initials, $bg_color) → returns SVG avatar HTML
- novasaas_get_reading_time($post_id) → returns "X min read"
- novasaas_get_star_rating($rating) → returns star HTML (★★★★★)
- novasaas_render_breadcrumb() → renders breadcrumb HTML
- novasaas_truncate($text, $length) → truncates with ellipsis

---

■ DAY 1 — TASK 2: Header + Footer + Main Layout

Create these files:

FILE 1: novasaas/header.php

Complete header with:

- <!DOCTYPE html>, <html <?php language_attributes(); ?>>
- <head> with charset, viewport, wp_head()
- Skip to content link (accessibility)
- <header> with id="novasaas-header" class="novasaas-header"
- Logo: get_custom_logo() with fallback to blogname
- Primary nav: wp_nav_menu() with custom walker for Bootstrap 5
- CTA button in nav: "Start Free Trial" (customizer controlled URL)
- Mobile hamburger button (aria-expanded, aria-controls)
- Mobile menu overlay
- JS: sticky header on scroll (adds .is-sticky class), mobile menu toggle
- NO jQuery — pure vanilla JS

FILE 2: novasaas/footer.php

Complete footer with:

- 3-column widget area row
- Footer bottom bar: copyright + footer menu + back-to-top button
- Copyright: "© <?php echo esc_html(date('Y')); ?> StreamFlow. All rights reserved." (customizer-editable)
- Social icons (SVG, customizer URLs): Twitter/X, LinkedIn, GitHub, YouTube
- wp_footer()
- Back to top button (smooth scroll JS)

FILE 3: novasaas/inc/class-walker-nav.php

Bootstrap 5 Walker_Nav_Menu:

- start_lvl: <ul class="dropdown-menu">
- start_el: <li class="nav-item"> with dropdown detection
- Dropdown: <a class="nav-link dropdown-toggle" data-bs-toggle="dropdown" aria-expanded="false">
- Active item detection
- aria-current="page" on active
- All output escaped

FILE 4: novasaas/index.php

Fallback template (redirect to home or show latest posts if no template set)

FILE 5: novasaas/404.php

404 page with:

- Large "404" in gradient text
- "Page not found" message
- Search form
- Popular posts widget area
- Back to home button

■ DAY 1 — TASK 3: Home Page Template (Most Important)

Create: novasaas/page-templates/template-home.php

This is the most important file. Build every section completely.

<?php /** * Template Name: Home — NovaSaaS * Template Post Type: page */ get_header(); ?>

SECTION 1 — HERO:

<section class="novasaas-hero"> - Animated gradient background (CSS keyframes, moving gradient) - Grid noise texture overlay (CSS) - Left: Badge chip "🚀 New: AI-powered workflows →" - H1 with gradient text: "Scale Your Business with StreamFlow" - Subtitle (p tag, customizer-editable) - 2 buttons: "Start Free Trial — It's Free" (primary) + "Watch Demo ▶" (ghost/outline) - Social proof: 5 avatar SVGs overlapping + "Join 10,000+ teams" - Right: Hero mockup SVG (dashboard illustration — create as inline SVG, dark theme app screenshot style with fake charts and UI) - Floating stats cards around mockup (animate on scroll) - Trusted by row: "Trusted by teams at" + 5 company name placeholders in grey text

SECTION 2 — STATS BAR:

<section class="novasaas-stats"> - Dark glass card background - 4 stat items with count-up animation on scroll (Intersection Observer): - 10,000+ → Users - 99.9% → Uptime - 150+ → Countries - 4.9/5 → Rating - Dividers between items

SECTION 3 — FEATURES:

<section class="novasaas-features"> - "Everything you need to scale" heading + subtitle - 6 feature cards in 3×2 grid: 1. ⚡ Real-time Collaboration — Work together seamlessly 2. 📊 Advanced Analytics — Data-driven decisions 3. 🔒 Enterprise Security — SOC2 Type II certified 4. 🔄 Workflow Automation — Automate repetitive tasks 5. 🌐 Global CDN — Fast everywhere in the world 6. 🤖 AI Assistant — Smart suggestions powered by AI - Each card: gradient icon bg + title + description + "Learn more →" link - Glassmorphism card style - Hover: lift + glow border animation

SECTION 4 — HOW IT WORKS:

<section class="novasaas-how-it-works"> - "Get started in 3 simple steps" - 3 steps with connecting line: Step 1: Create Account (icon: user-plus) Step 2: Set Up Your Workspace (icon: settings) Step 3: Invite Your Team (icon: users) - Each: number badge + icon + title + description - Alternating layout on desktop (left/right)

SECTION 5 — PRICING:

<section class="novasaas-pricing" id="pricing"> - "Simple, transparent pricing" - Monthly/Yearly toggle (JS — yearly saves 20%, badge shows "Save 20%") - 3 plan cards: STARTER: $9/mo (yearly: $7/mo) - 5 team members, 10 projects, 5GB storage - Basic analytics, Email support - "Get Started" button

PRO (MOST POPULAR — gold badge):

- $29/mo (yearly: $23/mo)
- Unlimited members, Unlimited projects, 100GB
- Advanced analytics, Priority support, AI features
- "Start Free Trial" button (filled, indigo)
- Highlighted card with glow border

ENTERPRISE: $99/mo (yearly: $79/mo)

- Everything in Pro
- Custom integrations, Dedicated support, SLA
- SSO, Audit logs, Custom contracts
- "Contact Sales" button
- Feature list: ✓ in green, ✗ in grey
- "All plans include 14-day free trial. No credit card required." text below

SECTION 6 — TESTIMONIALS:

<section class="novasaas-testimonials"> - "Loved by 10,000+ teams worldwide" - 3 testimonial cards in grid: Card 1: "StreamFlow transformed how our team works. We're 3x more productive." — Sarah M., PM at TechCorp ⭐ ⭐ ⭐ ⭐ ⭐ Card 2: "The best project management tool we've ever used. Simple yet powerful." — James K., CTO at StartupXYZ ⭐ ⭐ ⭐ ⭐ ⭐ Card 3: "Outstanding support and constant improvements. Worth every penny." — Emma L., CEO at GrowthCo ⭐ ⭐ ⭐ ⭐ ⭐ - Each: quote icon + text + avatar SVG + name + role + stars - Glassmorphism cards

SECTION 7 — FAQ:

<section class="novasaas-faq"> - "Frequently asked questions" - 8 accordion items (vanilla JS, smooth animation): Q1: Is there a free trial? Q2: Can I cancel anytime? Q3: What payment methods do you accept? Q4: Is my data secure? Q5: Can I change plans later? Q6: Do you offer discounts for startups? Q7: How does billing work? Q8: Do you offer refunds? - Plus/minus icon toggle - Smooth height animation

SECTION 8 — CTA BANNER:

<section class="novasaas-cta-banner"> - Full-width gradient background (indigo → pink) - "Start your free trial today" - Subtitle: "Join 10,000+ teams. No credit card required." - Email input + "Get Started Free" button (inline form) - form action: # (demo only) - 3 trust badges below: ✓ Free 14-day trial, ✓ No credit card, ✓ Cancel anytime <?php get_footer(); ?>

ALL JAVASCRIPT inline at bottom of template:

- Count-up animation (Intersection Observer)
- Pricing toggle (monthly/yearly)
- FAQ accordion
- Smooth scroll for anchor links

■ DAY 2 — TASK 4: Features Page + Pricing Page

FILE 1: novasaas/page-templates/template-features.php

<?php /** * Template Name: Features — NovaSaaS */ get_header(); ?>

SECTION 1 — HERO:

- "Powerful features for modern teams" heading
- Subtitle + 2 CTAs

SECTION 2 — FEATURE CATEGORIES (3 categories × 4 features):

Category 1: "Collaboration Tools"

- Real-time editing
- Comments & mentions (@username)
- Team channels
- Video meeting integration

Category 2: "Project Management"

- Kanban boards
- Gantt charts
- Time tracking
- Custom workflows

Category 3: "Analytics & Reporting"

- Real-time dashboards
- Custom reports
- Export to CSV/PDF
- Goal tracking

Each feature: large icon + name + 2-line description + "Learn more →"
Layout: 2-column (icon left, text right) for each feature

SECTION 3 — COMPARISON TABLE:
Full-width table:
Headers: Feature | StreamFlow | Basic Tool | Enterprise Tool
Rows (10 features): Real-time collaboration, Unlimited projects, Advanced analytics, API access, SSO/SAML, Custom integrations, Priority support, SLA guarantee, Data export, Mobile apps
StreamFlow: ✓ green checkmarks
Basic Tool: mix of ✓ and ✗
Enterprise Tool: ✓ but "expensive" note

SECTION 4 — INTEGRATIONS:
"Connects with your favourite tools"
12 integration logos (SVG text placeholders): Slack, GitHub, Jira, Figma, Google Drive, Notion, Zapier, Stripe, HubSpot, Salesforce, AWS, Zoom

SECTION 5 — CTA: Same as homepage

FILE 2: novasaas/page-templates/template-pricing.php

<?php /** * Template Name: Pricing — NovaSaaS */ get_header(); ?>

- Full pricing page (same 3 cards as homepage but larger)
- Feature comparison table below cards
- FAQ section (6 billing-specific questions)
- Enterprise section: "Need a custom plan?" with contact form
- Money-back guarantee badge
- Payment method logos (Visa, Mastercard, PayPal — SVG text placeholders)

■ DAY 2 — TASK 5: About Page + Blog Templates

FILE 1: novasaas/page-templates/template-about.php

<?php /** * Template Name: About — NovaSaaS */ get_header(); ?>

SECTION 1 — HERO: "We're building the future of work"
SECTION 2 — STORY: 2-column (text left, image placeholder right)
SECTION 3 — VALUES: 4 cards (Innovation, Transparency, Customer First, Team First)
SECTION 4 — STATS: 4 numbers (Founded 2020, Team 45+, Countries 30+, Raised $12M)
SECTION 5 — TEAM: 4 member cards

- SVG avatar (initials-based, coloured)
- Name, Role, 1-line bio
- LinkedIn + Twitter SVG icons Members: Sarah Chen (CEO), Mark Davis (CTO), Lisa Park (Head of Design), Tom Wilson (Lead Dev) SECTION 6 — OFFICE: 3 placeholder image cards with location names SECTION 7 — HIRING CTA: "We're hiring! Join our team →"

FILE 2: novasaas/archive.php

Blog archive:

- Page header: "Latest from our blog"
- 3-column responsive grid
- Post card:
  - Featured image (wp_get_attachment_image or placeholder SVG)
  - Category badge (coloured)
  - Title (H2, truncated 2 lines)
  - Excerpt (truncated 120 chars)
  - Author avatar + name + date + reading time
  - "Read More →" link
- Pagination (numbered)
- Sidebar on right (search + recent posts + categories + tags)

FILE 3: novasaas/single.php

Single blog post:

- Featured image (full width hero)
- Breadcrumb
- Category + reading time + date
- Title (H1)
- Author info row: avatar + name + bio snippet
- Post content (wp_kses_post)
- Tags row
- Share buttons: Twitter, LinkedIn, Copy link (vanilla JS clipboard)
- Author box: avatar + name + bio + social links
- Related posts: 3 cards (same category)
- Comments: wp_list_comments() + comment_form() — styled dark

FILE 4: novasaas/page.php

Default page template with sidebar option

FILE 5: novasaas/search.php

Search results page

■ DAY 2 — TASK 6: Contact Page + AJAX Form

FILE 1: novasaas/page-templates/template-contact.php

<?php /** * Template Name: Contact — NovaSaaS */ get_header(); ?>

LEFT COLUMN:

- "Get in touch" heading
- 3 contact info cards:
  - 📍 Address: 123 Tech Street, San Francisco, CA 94105
  - 📧 Email: hello@streamflow.com
  - 📞 Phone: +1 (555) 000-0000
- Social media links (SVG icons)
- "Response within 24 hours" badge

RIGHT COLUMN — CONTACT FORM:

- Fields: Full Name, Email, Subject (dropdown: General/Sales/Support/Partnership), Message
- All inputs: sanitize_text_field() + esc_attr()
- wp_nonce_field('novasaas_contact', 'novasaas_contact_nonce')
- Submit button with loading state
- Success/error message div

BELOW — MAP:

- OpenStreetMap iframe (no API key needed): <iframe src="https://www.openstreetmap.org/export/embed.html?bbox=-122.431297%2C37.773972%2C-122.411297%2C37.783972&layer=mapnik" style="border:0;width:100%;height:400px" loading="lazy"></iframe>

FILE 2: novasaas/inc/class-ajax-handler.php

OOP class NovaSaaS_Ajax_Handler:

public function __construct() {
add_action('wp_ajax_novasaas_contact', [$this, 'handle_contact_form']);
add_action('wp_ajax_nopriv_novasaas_contact', [$this, 'handle_contact_form']);
}

handle_contact_form():

1. check_ajax_referer('novasaas_contact', 'nonce')
2. Sanitize: name, email, subject, message
3. Validate: email format, required fields
4. wp_mail() to admin email
5. Return wp_send_json_success() or wp_send_json_error()
6. Rate limiting: check transient novasaas_contact_{ip}

FILE 3: novasaas/assets/js/contact-form.js

Vanilla JS:

- Form submit → fetch() AJAX
- Show loading spinner in button
- Show success message (green) or error (red)
- Input validation before submit
- Email format validation regex

■ DAY 3 — TASK 7: Customizer + Theme Options

FILE: novasaas/inc/class-customizer.php

OOP class NovaSaaS_Customizer with register() method hooked to customize_register:

PANEL: "NovaSaaS Theme Options"

SECTION 1 — General:

- Logo upload (light + dark version)
- Favicon
- Preloader: on/off toggle
- Custom CSS textarea

SECTION 2 — Colors:

- Primary color (default: `#6366F1`)
- Secondary color (default: `#EC4899`)
- Background color (default: `#0F0A1E`)
- Text color (default: `#F8FAFC`)
- Link color All use WP_Customize_Color_Control

SECTION 3 — Typography:

- Heading font (select: Plus Jakarta Sans, Space Grotesk, DM Sans, Syne, Outfit)
- Body font (select: Inter, Manrope, DM Sans, Nunito)
- Base font size (range: 14-20px)

SECTION 4 — Header:

- CTA button text (default: "Start Free Trial")
- CTA button URL
- Transparent header on hero: on/off
- Sticky header: on/off

SECTION 5 — Hero Section:

- Headline (textarea)
- Subheading (textarea)
- Button 1 text + URL
- Button 2 text + URL
- Show hero image: on/off

SECTION 6 — Footer:

- Copyright text
- Show social icons: on/off
- Social URLs: Twitter, LinkedIn, GitHub, YouTube

SECTION 7 — Blog:

- Posts per page (number: 6-24)
- Show reading time: on/off
- Show author: on/off

All settings use live preview (postMessage transport where possible)
generate_css() method outputs CSS variables to <head>

■ DAY 3 — TASK 8: Demo Import + CSS + JS Assets

FILE 1: novasaas/inc/class-demo-importer.php

OOP class NovaSaaS_Demo_Importer:

- Integration with One Click Demo Import plugin
- ocdi/import_files filter → define demo: name: "NovaSaaS — SaaS Starter" import_file_url: demo-data/demo-content.xml import_widget_file_url: demo-data/widgets.wie import_customizer_file_url: demo-data/customizer.dat import_preview_image_url: screenshot.png preview_url: https://demo.novasaas.com
- ocdi/after_import action → after import:
  1. Set front page to "Home" page
  2. Set blog page to "Blog" page
  3. Assign Primary Menu to primary-menu location
  4. Assign Footer Menu to footer-menu location
  5. Set reading settings

FILE 2: novasaas/assets/css/theme.css

Complete CSS file (compiled from SCSS concepts):
All sections styled:

- .novasaas-header (sticky, glass bg, transitions)
- .novasaas-hero (gradient bg, grid noise, animations)
- .novasaas-stats (glass cards, border)
- .novasaas-features (card grid, hover effects)
- .novasaas-pricing (cards, popular highlight, toggle)
- .novasaas-testimonials (quote cards)
- .novasaas-faq (accordion)
- .novasaas-cta-banner (gradient)
- .novasaas-footer (dark, 3-col)
- Blog styles
- Single post styles
- Contact form styles
- 404 page styles
- Utility classes
- Animation keyframes
- RTL overrides
- Print styles (@media print)

FILE 3: novasaas/assets/js/theme.js

Complete vanilla JS:

- DOMContentLoaded wrapper
- Sticky header (IntersectionObserver on hero)
- Mobile menu toggle (aria-expanded)
- Count-up animation (IntersectionObserver + requestAnimationFrame)
- Pricing toggle (monthly/yearly)
- FAQ accordion (smooth height animation)
- Smooth scroll (querySelectorAll('a[href^="#"]'))
- Back to top button (show/hide + smooth scroll)
- Lazy loading images (IntersectionObserver)
- Form validation helpers

FILE 4: novasaas/rtl.css

RTL overrides:

- Flip all directional properties (margin-left → margin-right, etc.)
- text-align: right on appropriate elements
- flex-direction: row-reverse where needed

FILE 5: novasaas/languages/novasaas.pot

POT file header:

NovaSaaS Theme Translation Template

Copyright (C) 2024 NovaSaaS

This file is distributed under the same license as the NovaSaaS package.

msgid "" msgstr "" "Project-Id-Version: NovaSaaS 1.0.0\n" "Report-Msgid-Bugs-To: support@novasaas.com\n" "POT-Creation-Date: 2024-01-01 00:00:00+00:00\n" "MIME-Version: 1.0\n" "Content-Type: text/plain; charset=UTF-8\n" "Content-Transfer-Encoding: 8bit\n" "PO-Revision-Date: YEAR-MO-DA HO:MI+ZONE\n" "Language-Team: LANGUAGE LL@li.org\n"

■ DAY 3 — TASK 9: Documentation + readme.txt + Submission Files

---

FILE 1: novasaas/readme.txt

=== NovaSaaS === Contributors: yourname Requires at least: 6.0 Tested up to: 6.6 Requires PHP: 8.0 Stable tag: 1.0.0 License: Envato Regular License License URI: https://themeforest.net/licenses

== Description ==
NovaSaaS is a premium WordPress theme kit...

== Installation ==

1. Log in to your WordPress admin panel
2. Go to Appearance → Themes → Add New
3. Click "Upload Theme" and select novasaas.zip
4. Activate the theme
5. Install required plugins when prompted
6. Go to Appearance → Import Demo Data
7. Click "Import" on NovaSaaS Demo

== Required Plugins ==

- Elementor (free)
- One Click Demo Import (free)

== Recommended Plugins ==

- Contact Form 7

== Changelog ==
= 1.0.0 =

- Initial release

FILE 2: novasaas/changelog.txt

Version 1.0.0 — Initial Release (2024-01-01)

- Initial release with 7 page templates
- SaaS-focused design with glassmorphism UI
- Pricing table with monthly/yearly toggle
- One Click Demo Import
- Elementor compatible
- RTL support

FILE 3: novasaas/documentation/index.html

Complete HTML documentation file:

- Theme installation guide
- Plugin requirements
- Demo import instructions (with screenshots described)
- Customizer guide (all options explained)
- Page template guide
- Color/font customization
- Adding blog posts
- Menu setup
- Widget areas
- Child theme setup
- FAQ
- Support contact
- Credits (all 3rd party: Google Fonts, Bootstrap 5, etc.) Style: Clean, minimal, matches theme colors

FILE 4: novasaas/demo-data/README.txt

Instructions for creating demo content XML.
Explains what data to include.

FILE 5: novasaas/tgm/class-tgm-plugin-activation.php

Include the TGMPA library file (link to download from tgmpluginactivation.com — cannot generate this library, must download separately).

Note: Download from https://github.com/TGMPA/TGM-Plugin-Activation/releases and place in this folder.

■ COMMON ERROR FIX PROMPTS — যখন দরকার হবে

PHP Error:
"এই PHP error আসছে: [error paste করো]
File: [filename], Line: [number]
ThemeForest standards maintain করে fix করো।"

CSS Issue:
"[screen name] mobile-এ ভাঙছে।
assets/css/theme.css এ fix করো।
320px, 375px, 768px সব breakpoint-এ test করো।"

JS Not Working:
"[feature] কাজ করছে না।
assets/js/theme.js এ vanilla JS দিয়ে fix করো।
Console error: [error]"

ThemeForest Rejection:
"ThemeForest এই কারণে reject করেছে: [reason]
সব related files fix করো compliance-এর জন্য।"

Elementor Compatibility:
"Elementor-এ [section] properly দেখাচ্ছে না।
Elementor CSS conflict fix করো।"

Missing Translation:
"এই string translatable না: [string]

File: [filename]
__('text', 'novasaas') দিয়ে wrap করো।"

■ FINAL THEMEFOREST SUBMISSION CHECKLIST

Code Quality:
□ PHP_CodeSniffer — 0 errors (run: phpcs --standard=WordPress novasaas/)
□ All strings translatable
□ All outputs escaped
□ All inputs sanitized
□ Nonces on all forms
□ No hardcoded values
□ No deprecated WP functions
□ No direct file access (add: defined('ABSPATH') || exit; to all PHP files)

Files:
□ style.css — correct headers
□ screenshot.png — 1200×900px
□ readme.txt
□ changelog.txt
□ languages/novasaas.pot
□ documentation/index.html
□ demo-data/ folder

Design & Function:
□ Mobile responsive (test 320px → 1920px)
□ Cross-browser (Chrome, Firefox, Safari, Edge)
□ No broken links
□ No JS console errors
□ All forms work
□ Demo import works

Performance:
□ PageSpeed 90+ mobile
□ No render-blocking resources
□ Images lazy loaded
□ CSS/JS properly enqueued

Submission:
□ ZIP: novasaas.zip (theme folder only, no node_modules)
□ Preview image: 590×300px
□ Description: 300+ words, keyword-rich
□ Category: WordPress → Creative → Specialty Pages
□ Price: $29
□ Tags: saas, startup, landing-page, elementor, dark, responsive
□ Support: 6 months included
